

Older Autistic Adults Needed

We are looking for research participants:

PURPOSE OF THIS STUDY

We want to learn about how older autistic adults spend their time and how their daily activities support their brain health (how well the brain works to help us think, move, and feel).

This study has received feedback from autistic advocates.

YOU WILL BE ELIGIBLE IF YOU ARE

- Autistic adult (formally diagnosed or self-identified)
- 40 years old +
- Living in Canada
- Proficient in English
- Able to use your own smart phone and computer

WHAT IS INVOLVED

- You will record your daily activities for 2 days on an app.
- You will complete a 20-30 minute online brain health self-assessment.
- You may be contacted for a follow-up interview with additional compensation.

PARTICIPATION BENEFITS

- You will receive a brain health assessment score and summary.
- You will receive a \$25 gift card for your participation.
- You will contribute to our understanding of daily life activities & brain health in older autistic adults.
